M10

CE
CERTIFIED

INDUSTRIAL LOGISTICS

Zallys M10 is a powerful electric tug, designed for towing wheeled loads up to 10.000 kg (22.046 lb) on flat ground.

Thanks to its steering tiller, M10 is extremely handy during use and the wide range of hooks and ballasts available allows it to easily handle trains consisting of several trolleys, trailers and machinery.

The compact size of this electric tug allows modern stage production process methods to be used, while preventing injuries and creating a safer working environment.
