M6.5 WITH LIFTING SYSTEM

INDUSTRIAL LOGISTICS

Zallys M6.5 with lifting system is a pedestrian operated electric tug mainly designed for moving trailers and heavy wheeled carts.

M6.5 couples to the trailers on the rear side through an electric elevator, adjustable in height through the control on the tillerhead.

It is a powerful vehicle, easy to handle, that can be equipped with various accessories, (i.e. hooks and ballasts), allowing it to tow up to 6.000 kg (13.228 lb) on flat grounds.
