HS4

MATERIAL HANDLING

Zallys HS4 is the 4-wheel version of HS electric cart, with a loading capacity up to 600 kg (1.323 lbs) or up to 1.000 kg (2.204 lb) if equipped with reinforced axles. It is designed to cover all daily operations with a single battery charge.

This electric trolley has a great stability and is ideal to be used in productive plants, warehouses, construction sites and wherever material movement operations are required, even on rough terrains.

Interchangeable skips and crates ensure maximum versatility in many different applications.
