JESPI

MATERIAL HANDLING

Zallys JESPI is an electric platform trolley that can be equipped with a wide array of accessories for multiple usage, making it suitable for the handling of material and goods stocked in pallets, for luggage and goods transport in airports and stations, for the maintenance of parks and gardens.

It can carry up to 600 kg (1.322 lb), or, when equipped with heavy duty axles, up to 1.000 kg (2.204 lb). JESPI is suitable for any kind of internal or external environment and can work on uneven ground.
