JACK L

INDUSTRIAL VEHICLE

Zallys JACK L is a 3-wheel sit-on electric vehicle used for the transport of personnel and merchandise, as well as for the maintenance and inspection inside hospitals, industries, airports, warehouses, greenhouses and markets.

This electric utility vehicle has an incredible versatility of application in various sectors and on many different types of ground.

JACK L is stable and easy to drive: it can tow wheeled loads up to 1.500 kg (3.307 lb) and carry loads up to 500 kg (1.102 lb) on the multi-purpose wide platform on the back.
